Higher Level Basketball Camp is designed to develop all of the core fundamentals of the game in young players. Campers will receive an overview of the game of basketball as well as detailed instruction on how to play defense, how to rebound, and the concepts of offense. Teams will be formed by age and ability. The camp will focus on teaching young players the proper shooting technique of squaring up, releasing the ball and follow through. In addition, players are taught how to generate scoring opportunities. Each player is taught the triple threat, how to attack the basket, how to create offensive opportunities and how to get open. Higher Level uses an 8 to 1 camper to counselor ratio which encourages maximum participation by all campers
